Stop running your venue from a phone and a clipboard.

Most venues juggle phone calls, spreadsheets, paper waivers and a card terminal. VenueGlide puts all of it in one place: customers book and pay themselves, and your team runs the day from one live screen.

WITHOUT VENUEGLIDE

-  **Phone tag for every booking**
Missed calls after hours are missed bookings.
-  **No-shows and unpaid sessions**
Lanes held for people who never turn up.
-  **Paper waivers at the counter**
Slow check-in and forms that get lost.
-  **Staff needed to open the doors**
Late and early sessions cost wages, or don't happen.
-  **Numbers spread across five tools**
Bookings, sales and invoices never quite add up.

WITH VENUEGLIDE

-  **Customers book online 24/7**
They see real availability and book in under two minutes on any phone.
-  **Paid upfront through Stripe**
Every booking is paid before the session, so no more chasing.
-  **Waivers signed while booking**
Digital, versioned and stored safely, with guardian consent for minors.
-  **A door PIN with every booking**
Smart-lock codes, timed to the session, make staffless hours possible.
-  **One system, synced to Xero**
Bookings, POS, refunds and reports in one place.
